GTON N. C

Now that the Modocs are sentenced we will hear the old song of military despotism, satraps, etc., so familiar to our ears, and which flow so glibly from Democratic lips and pens. We have already been told that this trial was conducted in a time of peace, and without the color of law. It has been said that this military court was formed to convict, and that the finding and sentence were foregone conclusions. In this city lately we have had a case of most flagrant murder, and one of the boys confesses to the crime. Is not his conviction certain? Was not the court which tried old John Brown organized to convict him? These savages, not in time of peace, but after declaring war while under cover of a white flag, with carefully matured plans, murdered the commandant who trusted to Indian honor! There were plenty of witnesses to the dastardly deed, and of course their conviction was certain. There were probably a dozen witnesses to the crime. For ourself, we saw no reason for a trial at all. The murderers should have been shot in their tracks when first seen; but as a court was ordered, and a careful investigation gone into, and a board of officers sworn to try the case impartially, we do not see how they could have honestly given any verdict different from the one they rendered .-These Indians certainly would have fared no better before an Oregon jury. However, we will probably have an opfar-off State will do, as they have made fenders, for outrages committed in time

rapine in the West. We are glad that General Grant withstood the pressure breight to bear by the humbug peace commissioners, and promptly approved the sentence. It gives the opposition press an opportunity to shed some ink over the matter, but that won't hurt anything. The grand fact still remains that the leaders of this terrible Modoc tribe are to suffer the penalty for their crimes. Had they a score of lives to lose instead of one, they could not atone for the hundreds of men, women and children they have slain in cold blood during a time of peace.

But, as we have said above, this crime was committed after war had been declared. The very papers now attacking this court, headed the news, during the war with these savages, "The Modoc War," and now they say the Government has been at peace for nearly eight years. Have not we lost at least a hundred soldiers during the past year in fights with the Indians? We published the [particulars of Gen. Custer's fight with Indians but three days ago, and General Crook has been fighting the Apaches all summer. If these gentlemen will only go out there among these assassins, they will soon learn that there is war, bloody red-handed war, and conflagration and murder, cursing the West, and driving the hardy settlers from their homes. We are a firm believer in extermination, when we talk of an Indian war. The terrible ordeals our troops undergo, are greater than the severest scenes of civilized strife witnessed during our late war. The nerve required to fight Indians is a very different thing from going into a regular battle, and the heavy and unequal loss of life among our troops shows the disadvantages they labor under. When the villains are captured, it is not strange that the survivors, who witnessed these scenes, should thirst for their blood, and we only wish they got more of it.

The Raleigh Sentinel regrets exceedingly to learn that the physicians who are attending the Hon. D. M. Barringer at the White Sulphur Springs, have no hopes of his recovery. All his immediate family are with him. The announcement of his death may be expected at any time.

The Rutherfordton Record understands that Mr. J. B. Hill, Deputy U. S. Marshal, has left for Washington, D. C., and Albany, N. Y., to take pardons to R. A. Shotwell and William Scrugg, and also learns that pardons have been d George Holland, who are confined at bany, for their connection with last ten days, and for whom the doctors can find no remedy, should be shown a

- Hon. John P. Hale, or New Hampshire, is rapidly sinking and can not possibly last much longer. While his failing health was known throughout the country for some time past, it will be a source of some national sorrow to hear of the demise of one of the early pioneer statesmen in the cause of Republicanism.

- The Innman steamship City of Limerick ran into the new stone pier near the Battery, Tuesday, in New York, knocking in the massive masonry to the depth of three feet, and forcing heavy blocks of granite from their places for several yards on each side of the point of contact. It is stated that the steamer is uninjured, but as a precautionary measure no passengers will be taken on the return trip.

- The storm of Sunday and Sunday night was one of unprecedented severity in England. Accounts from Cambridge, Peterborough, Wisbeach, New ark, and other towns represent that the wind and lightning were appaling.-Thousands of people refused to go to bed lest their houses should be over whelmed while they slept. A number of fires were kindled by the lightning, and many deaths are reported. Childerly Hall, near Cambridge, historically connected with the reign of Charles I, was struck by lightning, and burned to the ground.

- In the Cortes, Tuesday, Senor Olave demanded the prosecution of Hidalgo on the charge of having abandoned his post as captain of the ironclad Vittoria. He inquired of the Ministers whether the report that Hidalgo was going to Washington on a mission to the United States government was correct. As a consequence of Olave' action, a duel with Hidalgo was imminent, but through the intervention of friends the meeting has been avoided.

- Nearly two thousand persons assembled at the Seventh Regiment Armory Tuesday to witness the evolution portunity to learn what a jury in that drill of the San Francisco cadets. General Shaler, commander of the National a requisition for some of the other of Guards of the State of New York, and other officers were present. The movements of the cadets were executed with urday last, near Smithfield, Johnson If ever murderers deserved hanging extreme promptitude and precision, county, one Mrs. Rainey Pool, wife of in this world, these Indians do, and we and elicited frequent applause. The Frederick Pool, for some cause, adminpatiently wait for their exit. There will | cadets showed familiarity with compabe just so much less of murder and ny movements almost unknown to the a step-child, a boy of about eight years,

> - The Entomological Division of the Agricultural Bureau confesses to have received a severe blow by the passage of the new postal laws. The influx of specimens has materially subsided, as they can no longer be franked by parties wishing to forward them. Efforts will be made at the coming session of Congress to remedy the trouble by appropriate legislation. As the matter stands, not only this but other scientific departments are suffering from the abrogation of the franking privilege. A few insects have lately been received from Florida, but otherwise the museum has not received an addition for several weeks past.

- Of the thirty thousand medals awarded to exhibitors at the Exposition four hundred go to America. There is much dissatisfaction with the results of the Exposition. It is charged that number of articles which were never entered for competion received medals. and that several firms which had none of their goods on exhibition were never entered for competition received medals, and that several firms which had none of their goods on exhibition were awarded diplomas through manipulations of the jury. It is alleged that those who know how the prizes were secured will attach no value to the medals of the Vienna Expostion. The quantity of goods and specimens which will be returned home from the American Department is very small. Most of the stuff will be sold there. The exhibitors have been leaving in crowds as fast as they could get away, since the close of the Exposition.

Some of the farmers who have extensive fields of corn in the rich swamp lands, and who expected a lerge yield, will not harvest enough for their own family use, so great is the destruction by these wild animals. One of these monsters was killed recently at Dawson's Creek, weighing over four hundred pounds, and in his stomach was found more than a peck of corn.

A FORMAL complaint was made to the Mayor this morning about the fish that were thrown in the street, and of which we spoke yesterday. We have not the vigilant in the discharge of his duties, and careful of the health of the city.

TRIAL TRIP.—The new Steamship Raleigh which will ply between this port and Baltimore made a trial trip yesterday up and down the Chesapeake Monday. It is said she is a beauty and as substantial as she is pretty.

CAPT. PADDISON, the genial commandent of the Steamer North East is going to organize another excursion, to come down from Point Caswell and embark on the Waccamaw here for Smithville. These moonlight ercursions are very popular and we have no doubt buth participants will have a grand time.

WATER WORKS-Mr. C. J. Manning of Baltimore is in the city in the interest of the Water Works. He will visit the different points where water may be obtained to-day, and if the proper encouragement is given the company he represents. we will soon have the rare comfort of a plenty of good water, and permanent works in the &c. &c.

WE ARE informed that Dr. Satchwell made no such sweeping charges as we were led to believe he had indulged in-We were convinced of that when we saw the remarks in the *Journal, published yesterday. The doctor owes it to himself and the public to tell what he did say, and we cheerfully offer him the use of our columns to define his position.

FOUR DOLLARS WORTH OF MUSIC FOR 30 CENTS.—By sending for the September number of Peters' Musical Monthly, price 30 cents, you will get four songs, a sacred quartet, a four-hand piece, and four instrumental pieces, worth \$4 in sheet form. Thirty cents is but a small outlay to test the merits of Peters' Magazine. Send for a copy, and our word for it you will never regret the outlay. Address, J. L. Peters, 599 Broadway, New York.

THANKS .- We return our thanks to Messrs. J. H. and C. M. Goodsell, of the Daily Graphic, for an invitation to witness the inflation of their great balloon. This wonderful experiment is attracting the attention of the world, and all earnestly hope for its successful arrival in Europe. The Graphic itself is one of the wonders of the world, giving, as it does, a daily pictorial history of the world; but its greatest merit, to our mind, is its spicy articles. If we could have but one paper from New York, we should choose the Graphic. The wise sayings in our columns, under the head of "Graphicalities," come from that paper, and there is always something witty in them.

> WILMINGTON CITY DIRCETORY.-Messrs. S. G. Hall and E. S. Warrock are making arrangements for publishing a full and complete Directory of the City. Instead of the "History of Wilmington from its commencement," it is the intention of the publishers to present a comprehensive and concise article on the commerce and business interests of the City; also, a description of the Churches, Schools, Public Buildings, Hotels, Railroads and Steamboat lines,

This Directory will be issued by the Fair in November, will be printed in this city, and no collections asked until

the work is completed and delivered. There has not been a time when a correct Directory of the City was more needed than at present, and we have no doubt but that our business men will promptly embrace the opportunity of juror when summoned upon an inquest liberally patronizing a work which will tend so much to their interest.

For the Post.

Editor Wilmington Post: SIR:-In your editorial yesterday you inferentially charge me with want of proper respect to our county officials. I am sure the large audience did not understand the remark, as made by me at South Washington, to refer to the nativity, character, wealth and intelligence | ciety without compensation, stating that of the individual members of the Board | in many cases the Jury are detained for of County Commsssioners, for I appreciate the qualities of head and heart of every one of the Board, and have received marks of personal favor from them all. But the public policy of the clusion that the Jurors were not entitled Commissioners as such is "where they to pay, and that the plaintiff could not made a mistake," and the testimony I have to offer is the spontaneous uprising

of the people against their acts. At the grand citizens' protest meeting, to be held in this city in September, I think you will be convinced as to the that "a great mistake" has been somethink it belongs.

CORRESPONDENCE.

TARBORO, N. C., Aug. 26, 1873. EDITOR OF POST:-

DEAR SIR:-To-day the Williamston and Tarboro railroad was sold. The Attorney for the house of Messrs. Blane & Co., of New York, became the purchaser. The unpaid in stock was sold first and bought by Henry Robinson, Esq., of Bethel, at a nominal price. The payment for the road was one hundred and twelve thousand dollars in its own bonds. For the completion of the road the Attorney offered, that if those interested in its completion will repair the road-bed and lay down the cross ties throughout the unfinished part, and donate the same, he would have the rails - The next regatta will come off laid and cars put to running at once. I hope the proposition will be accepted.

The southern bound surveyors of the New York, Charleston and Norfolk railroad have passed Greenville. The route will cross the Roanoke river about two miles North of Williamston, and then follow the bank of the river in its southward course through Williamston on to Greenville. The road should take into its route the very enterprising village of Bethel. So much for railroads.

The crops in this county, since the rains, do not seem to be doing so well; still, for all this, it is believed by the knowing ones, that our planters will make all the cotton that they can save.

The till of one of our butchers was yesterday's sales.

A few of our merchants will start North in a few days to lay in their fall

Navigation still good and the boats

are making their regular trips. So far the health of the town is pretty fair, but were you to see the number of yellow letters upon the fences about town you would come to the conclusion that many of the people are in danger of losing their lives.

Our village boys will have something to talk about for the next two or three weeks. The Great Eastern Circus is coming. They carry with the company twelve centre poles. Goodness gracious, what sights we may expect to see.

Melons are still plentiful, and those delicious Concord grapes are coming to market freely.

The ice question is the most important one just now. Both of our houses are exhausted. Will have to fall back for our supplies upon the big ice house of Messrs. Lippitt & Co. of your city. . Respectfully,

An application was made to the County Commissioners, by the members of the Coroner's Jury, for pay, which allowance would have been made by the Board, had they had the authority in law to do so. The question, unfortunately for the Jurors, had been decided by the Supreme Court of this State, in the case of Green vs. Wynne, reported

in 66th North Carolina Reports. Judge Boyden delivered the opinion of the Court, which is as follows:

The only question made in this case s whether a person summoned by a coroner as a juror upon an inquest and who attends and serves is entitled to be paid for such services.

Under the old system, the fees of the coroner and the physician were provided for, but no fees were allowed the jurors. In the case of forcible entry and detainer, the Act makes no provision for the payment of the jurors and witnesses. In the case of a jury where a party claimed damages for overflowing land by the erection of a mill-dam, Rev. Code Chap. 71, Sec. 15, provides that the jurors shall receive 80 cents per day and mileage. But we know of no other Act providing for the payment of jurors except sitting at court. It is contended that the Act of 1868-69, Chap. 279, Sub Chap. 9, Sec. 1, 2 and 3, entitles the plaintiff to pay for attendance as a by a coroner. We do not think so.-The Act is manifestly intended for the payment of jurors attending the Superior Courts, and has no reference to jurors attending inquests upon a summons of a coroner. The law in that respect remains as before the adoption of our present system.

The plaintiff's counsel argued the case at length, and pressed upon the Court the hardship of requiring such service from the poorer members of sodays and weeks, and referred to the Westfield explosion case, where the Jury sat for weeks. Notwithstanding the argument, the Court came to the con-

Before making your arrangements to folow the advice of the "thousands who have dready gone," it would be well to consider what has been done to make the journey to your "Homes in the West" as pleasant and free from danger as human skill and fore-

ight can accomplish. By consolidation and construction, a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the future great City of the world." This line, the

ST. LOUIS & SOUTHEASTERN RAIL-WAY, has, during the past year, earned an envia ble reputation by its smooth track, prompt time, sure connections, and the magnificence of its passenger equipment. Its

trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake. It is possitively the only line running Pullman Palace Drawing-Boom Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance,

time, or equipment. Why, then, journey

by circuitous routes? Do not be induced

to purchase tickets to St. Louis or the

West by any other line, remember that The "St. Louis & Southeastern" is the shortest, cheapest, quickest, best and only line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. AS A REPUBLICAN JOURNAL, The TIMES will be devoted, as in the past to an intelligent and firm support of the Republican Party. Its course in reference to the Tammany Ring, at a time when all the other daily papers in New York obstructed and discouraged its efforts, attests its sincerity in the cause of Reform. The Times stood alone in demanding Reform from 1869 to the close of 1871, and there is no sincere and honest proposal for Reform, in any branch of the Government, which will not be heartily supported by the TIMES. But it will not conspire in assisting ambitious politicians or demagogues to reach power under false pretenses. It will not encourage defection from the Republican Party, which is still the party of pro-

gress, security and national prosperity.

It will sustain, with all the force and influence at its command, the principles and policy which have rendered that party so justly famous in our history. It will advocate those measures by which the honor, the peace, and the prosperity of the nation can be best secured and promoted, and will constantly study the wants of the people rather than the wishes of the politicians. C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on my dwelling last Spring, and am much pleased with it, and it looks as well now as when first painted, and consider it a good Paint.

Yours, truly,
Creswell P. O., Hartford county, Md., Feb. 6th, 1873.

Mr. C. P. Knight—Sir: The Paint came sately to hand as ordered—two kegs, five gal-Mr. C. P. Knight—sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself. Two weeks, (not constant work,) completed the house two coats. The last coat I applied thick, and it is now generally conceded that for enamel-like hardness, and body, and harmony of colors, there is not a handsomer job in the piace. I saved sixty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "Fnamel Paint" to the wants of our people, in excellency of material in beauty of color and in Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (it it is desirable to you,) to make what use you think proper of this letter.

Very respectfully and truly,

8. McGILL, M. D.

To the Public—It affords me much pleasure to state that in July, 1871, Front Street Theatre was painted inside and out with "Bradley's Patent Enamel Paint," for which C. P. Knight, No. 93 West Lombard Street, is agent, and, to testify to its superiority over any and all other paints for similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, will only mention its being mixed and ready for use in quantities to suit purchasers its quickly drying properties, which saves much time in the execution of work were paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most earnestly recommend it to the merchants and tradesmen of our city, believing it will give them greater satisfaction than they can possibly anticipate.

BALTIMORE, April 25, 1873.

Front Street Theatre. Chambersburg, December 10th, 1872. Mr. C. P. Knight-Dear Sir:-The paints we received from you have been applied to several of our own buildings and to those of our friends, and have given entire satisfaction in covering qualities, in gloss, and in adaptability to all kinds of surface of material and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties, or painters to mix and furnish materials, wherein we have found the most deception.

Yours, truly, Yours, truly, JACOB STOUFFER & SON.

FROM HON. JOHN WETHERED.

Mr. C. P. Knight:—At the recommendation of a friend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is freer from disagreeable odor.

Yours, Respectfully,

JOHN WETHERED.

C. P. Knight, Esq., Agent for Bradley's Patent Enamel Paint—Dear Sir:—The paint we purchased from you we will cheefully endorse as the best of any kind we have ever we purchased from you we will cheefully endorse as the best of any kind we have ever used; its covering qualities is everything desired, drying promptly and with a hard gloss which must, we think, resist the action of all kinds of weather. This is our experience, and we can recommend it with certainty, and intend to use it on all occasions where we desire a goed job of work. Very Respectfully,

NOTICES OF THE PRESS.

The ever-increasing circulation of this excellent monthly, proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must

consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudices or deprayed tastes.—

Boston Globe. The character which this Magazine possesses for variety, enterprise, artistic wealth,

and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life.—Brooklyn Eagle,
